

FABER

GENERAL DOCUMENTATION

- Design and manufacture of components for the packaging industry
- Renowned for the design and manufacture of screw assemblies and tooling for packaging machines
- Manufacture of chain guides and machined plastic parts
- Design and manufacture of modular aluminum conveyors
- Selling of modular chains and belts

FABER

Plastic parts & modular conveyors

Zone industrielle - rue Henri Dunant
FR-08140 Bazeilles
Tél. : +33 (0)3 24 27 03 29
E-mail : info@faber.fr

FABER specializes in plastic material, machining and conveyors and has developed innovative technologies with the help of its customers. Our team in Boissy-Saint-Léger (near Paris) designs and produces specific solutions, mainly for the packaging industry.

Our sales network, design offices and staff stay tuned to the market in order to foster and develop a collaboration that has lasted for 60 years.

/ Main sectors of activity

Food industry	Household products
Healthcare	Packaging
Beauty	Mechanical engineering sector
Pharmaceutical	Equipment manufacturers
Medical equipment	Industrial distribution

/ Some of our customers :

ALPLA	Federal Mogul	Norgine
Amora	Gerresheimer	Plastuni
Andros	GlaxoSmithKline	Pierre Fabre
BASF	Guerlain	Procter & Gamble
Bel	Häagen-Dazs	PSA
Bic	Heineken	Puig
Boiron	Johnson & Johnson	Rémy Cointreau
Bonduelle	Lactalis	SKF
Bongrain Gérard	L'Occitane	Sodebo
Brioche Pasquier	L'Oréal	Taittinger
Clarins	La Boulangère	Tereos
Colgate	La Martiniquaise	Unilever
Danone	LDC	Unither
Delpharm	Lilly	Volvic
Européenne d'embouteillage	MSD	William Saurin
Essilor	Nestlé	Yoplait
Fareva	NextPharma	Yves Rocher

/ MACHINED PLASTIC SOLUTIONS

FABER is a leader in the design and manufacture of equipment for bottling machines (screws, tools, guides, clamps).

Turning sleeves by 90°, 180° or 360° are also part of our range of production.

On-site surveys, quick changes, weight reduction, bottle preservation, multi-format.

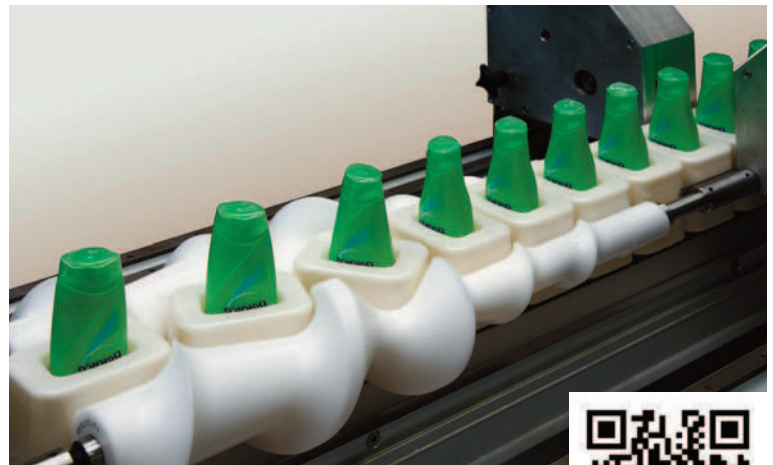

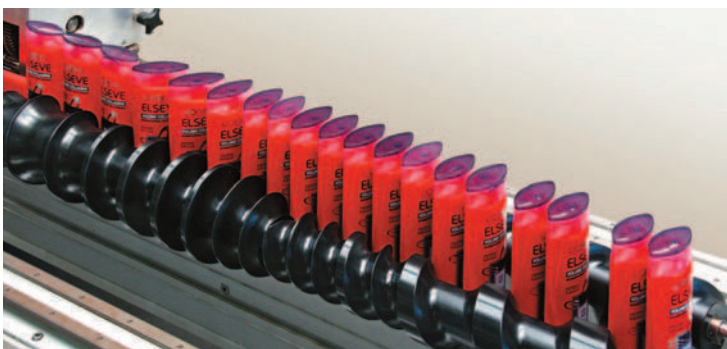

From your needs we develop original solutions.

/ Twisters

/ Manipulation screws

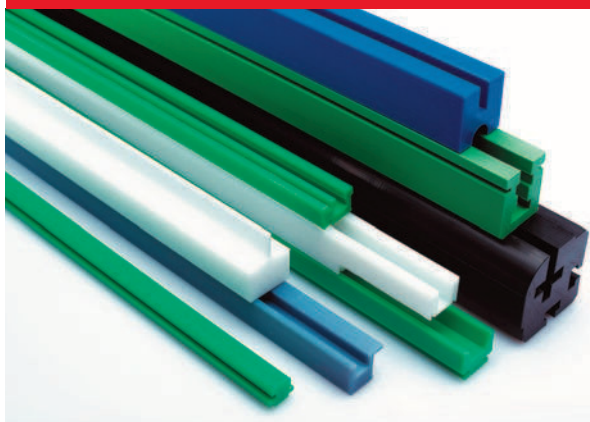

/ Tools for packaging machines

FABER designs and manufactures your packaging machine tooling, according to drawings, 3D surveys of machine bases and bottles: introduction screws, stars, guides, integrated quick format change systems, in a wide range of colours.

FABER can also provide you with custom-made "5S" panels for your tools.

/ Sliding profiles & machined plastic parts

FABER is a manufacturer of technical plastic parts by machining for all industries :

- Turned, milled or specific plastic parts
- Standard and customised sliding profiles from 3 metres in length
- On request, we engrave your reference on the parts.

Our design offices can guide you in optimising the design of your machined plastic parts and recommend the most suitable materials.

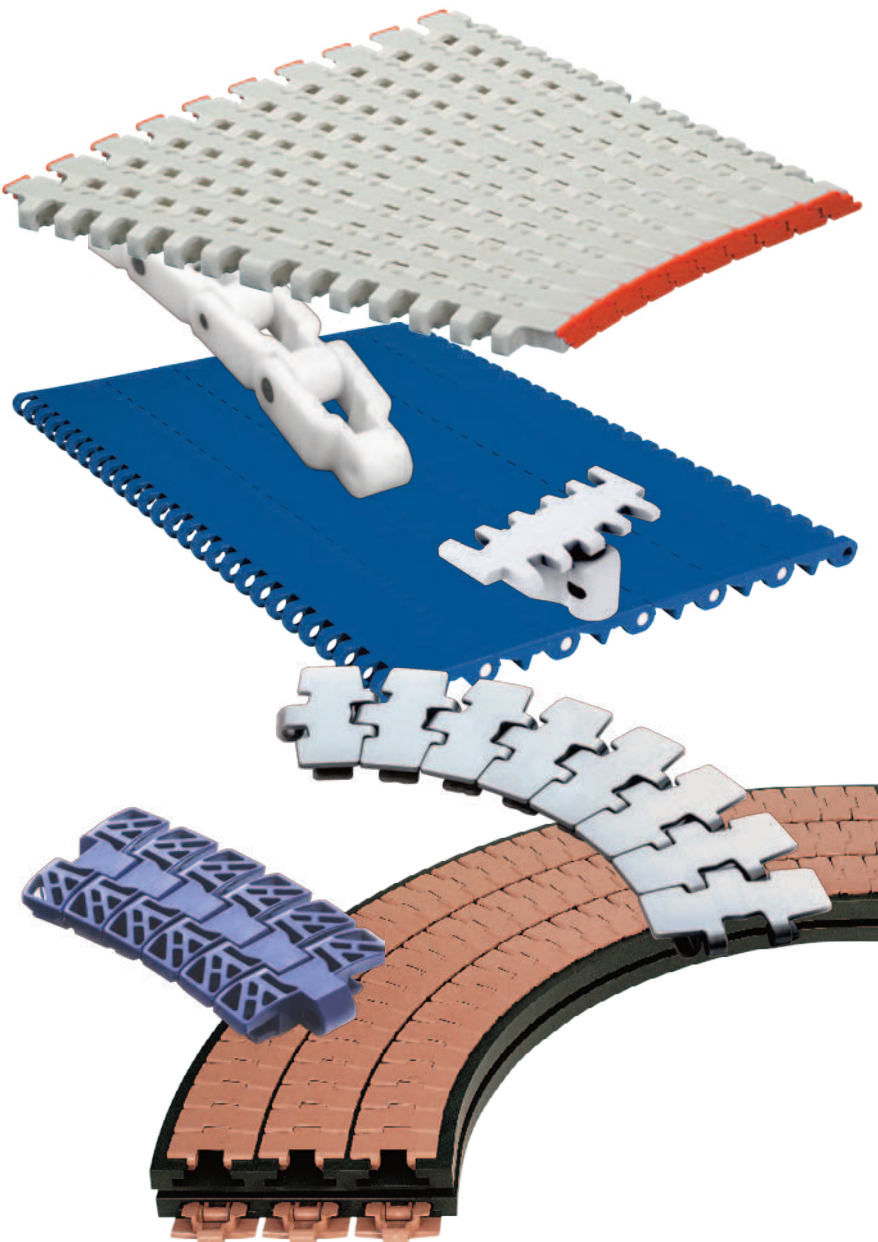

/ CHAINS & BELTS

FABER stores and distributes chains and modular belts such as

- uni-chains
- Magris
- Scanbelt

FABER manufactures the appropriate sliding profiles for these chains and belts

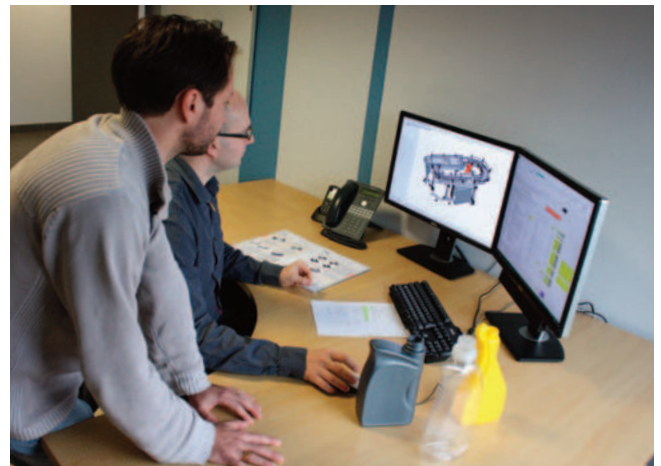

/ MODULAR CONVEYORS

For more than 30 years, **FABER** has developed a range of modular aluminium conveyors adapted to transportation of cans, bottles, flasks, cartons, etc...

Based on your requirements and our 3D studies, we define together the most efficient solutions.

Our customers praise our conveyors for their robustness, reliability, safety, design and modularity.

/ Product Handling

1

2

3

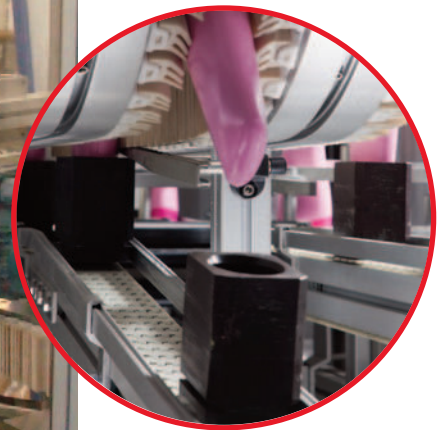

FABER designs and manufactures **CORIS®** solutions :

- Pitching
- Switches, distribution or grouping
- Liftgates
- Elevation changes
- Handlers
- Unpuckers and puck conveyors that **FABER** can also offer you.

/ Unpuckers

4

- 1 Motorised pitch screw system
- 2 Packaging module
- 3 Star distribution
- 4 Unpuckers

/ Blowing machines for bottles

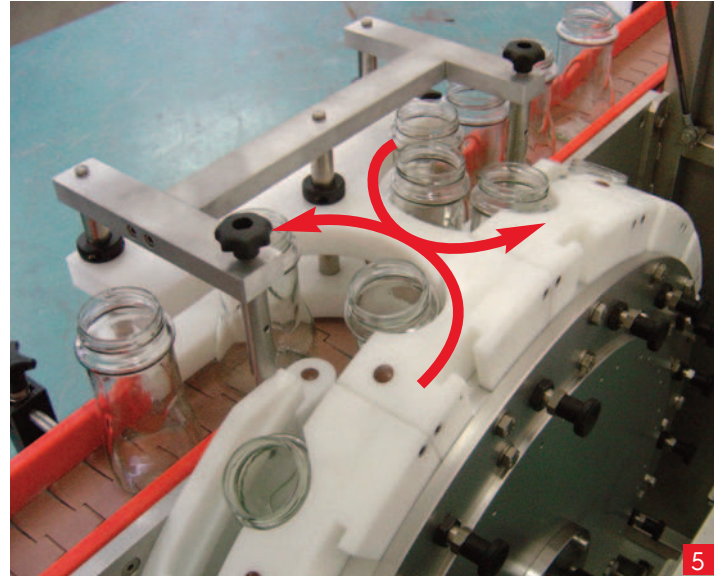

Your packaging processes require you to ensure that your empty containers are free of impurities or foreign bodies before filling. .

FABER designs and manufactures **CORIS®**

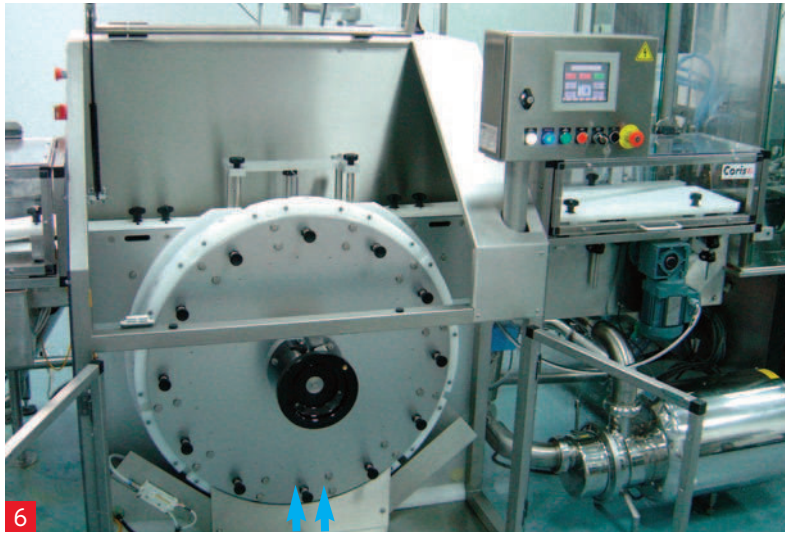

solutions for cleaning empty flasks by reversing and blowing

- Glass or plastic bottles, cardboard or metal bottles
- Pharmaceutical, cosmetic and food industries

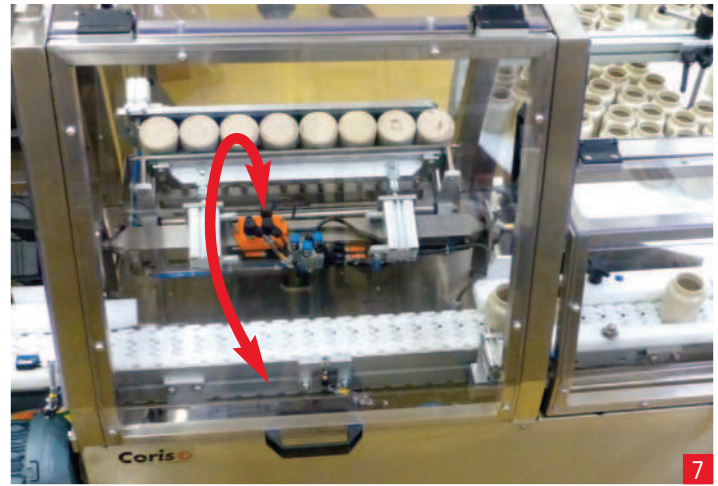

Different complementary solutions are available depending on the speed, shape, rigidity and material of the bottles and the industrial environment.

- 5 & 6 Rotary blower
- 7 Sequential blower, turntable feed
- 8 Turntable blower, turntable feed
- 9 Pinch blower

/ CORIS® SPECIFIC SOLUTIONS

FABER designs and manufactures **CORIS®** conveying and handling systems for packaging lines.

The fields concerned are as varied as:

- the pharmaceutical and cosmetics industries
- the food industry
- the mechanical industry
- the manufacture of electrical equipment
- the optical industry

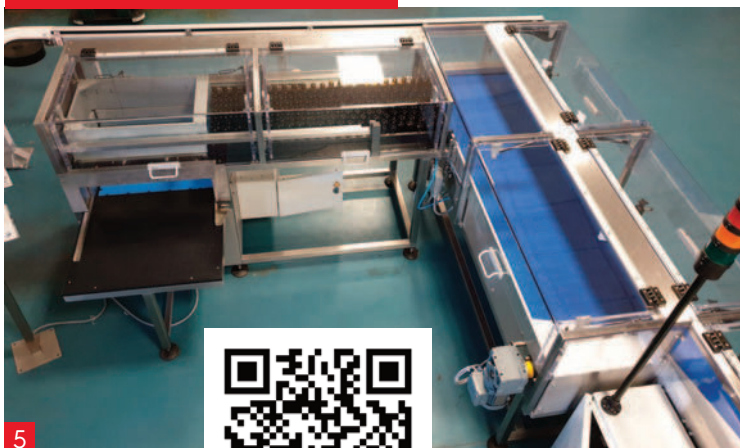

/ Accumulation tables

/ Depalletizer

/ Unpacker

/ Turntable

- 1 Accumulation tables for metal cans
- 2 Dynamic accumulator, cheese industry
- 3-4 Depalletiser
- 5 Semi-automatic or manual depacker
- 6 Turntable

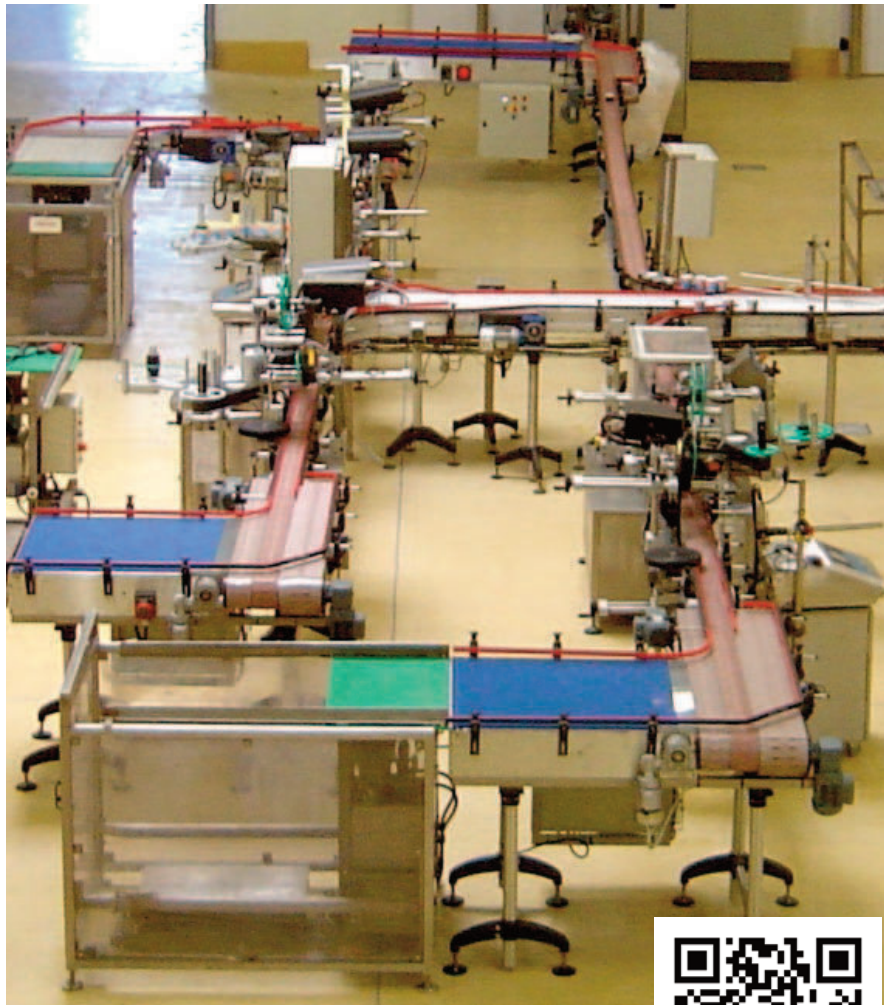

/ Packaging lines

FABER also offers **CORIS®** solutions for packaging lines :

- workstations
- man passages
- standard or made-to-measure conveyors
- automation management

Our design office is at your disposal to design the specific solution best adapted to your needs.
